FOR IMMEDIATE RELEASE

One-Way Traffic Control on Highway 1 Near Bodega Bay

Bodega Bay – Caltrans will implement one-way traffic control on a segment of State Highway 1 just south of Bodega Bay on June 7, 2011. The one-way traffic control will reduce the road to one lane, and will remain in place twenty-four hours a day for about three months.

The one-way traffic control will enable crews to safely construct a retaining wall along this section of the highway. The heavy winter rains left this area susceptible to mud and rock slides.

Traffic will be controlled by signals set on either side of the closure. Drivers are advised to expect moderate delays and to allow extra travel time.
